1. Type settings jsonp, jsonpCallback and jsonpCallbackName are not added, there
2. how can i get response head
3. not support more than 16 integer data in response data
4. CORS error when trying to get google geocoding
5. No err was throwed when network disconnected
 6 .   w h e n   I   u s e   r e q w e s t   p o s t   f i l eÿ t h e r e   i s   e r r o rÿ   n e s t
7. cache
8. reqwest promise with Nock
9. Incorrect handling of response data
10. Unable to send multipart/form-data request
11. How to abort a request?
12. if ajax return empty string ,the success function first param type will become "XM
13. Uncaught TypeError: Cannot read property 'responseText' of undefined
14. reqwest 404 Request Method:OPTIONS
15. Setting content-type to 'application/json' on POST seems to be broken
16. Setting contentType to application/json leads to session cookie not being sent
17. i need to upload fies, but it doesn't support dataform....
18. Suggestion: add JSON.stringify to post if data is a JSON object and contentType
19. Can anyone put that semi at the end
20. option.async=false,and callback(success) is not invoked...
21. type is jsonp ,how to basic auth ?
22. UglifyJS warning
23. Reqwest adds access-control headers which forces preflight
24. Get method with http basic auth
25. Downloading file
